■ Career Objective

Passionate Full Stack Web Developer with expertise in building dynamic and scalable applications using Node.js, Express.js, MongoDB, React.js, HTML, CSS, and JavaScript. Skilled in both frontend design and backend development including authentication, data management, and API integration. Looking for opportunities to contribute to impactful projects while advancing technical expertise.

■ Technical Skills

- Frontend: HTML5, CSS3, JavaScript (ES6+), Bootstrap, React.js
- Backend: Node.js, Express.js
- Database: MongoDB
- Other Tools: Git, GitHub, WordPress, JWT Authentication, Multer (file upload), Firebase (media storage)
- Core Strengths: RESTful API Development, Authentication & Authorization, Responsive Web Design, Full Stack Application Development

■ Experience

Web Developer – Nimtt Pvt Ltd (2024 – Present)

- Designed and developed the company's complete website with secure login/authentication, form submissions, and data fetching using Node.js, Express, and MongoDB.
- Built custom admin dashboards for handling students, courses, and transactions.
- Integrated AI Chatbot to improve user interaction and support.
- Ensured responsive UI and optimized backend for performance and scalability.

■ Projects

■ Full Stack Projects

Admin & Accountant Portal – Financial management system with create, update, delete functions and complete transaction history (dates, amounts, payment types).

Stack: Node.js, Express.js, MongoDB, HTML, CSS, JavaScript
